

Pool, Garden & Koi Pond

ALL designed to ensure easy, low cost maintenance and running costs.

POOL

Enclosed heated pool benefits from solar panels providing **FREE** electric for the efficient heat pump. Warm, filtered swimming water from Spring until late Autumn.

Simple to maintain, just put a chlorine block in the skimmer once or twice a week on average at a cost of £1 per block.

In summer if required, pool sides convert from enclosed to open air easily in around 10 minutes.

GARDEN

ALL plants return every year.

Highest quality artificial grass, that really looks like real grass.

ALL garden and grass has highest quality weed block membrane.

ALL the garden has Scottish pebbles or slate chipping layer to help ensure water retention in the soil and prevent weeds.

Automatic sprinkler system operates when required.

KOI POND

Includes large beautiful Koi Carp, specially selected by experts in Japanese Koi Carp.

Estimated value well over £20,000.

The best filtration and UV system installed by experts in keeping Koi Carp.
